

Genesis Décor specializes in designing and manufacturing durable, attractive, and easily installed area décor and cabinetry for micro market, office coffee service, and vending areas. We make your installation not only beautiful, but quick and easy because our units are shipped 90% pre-assembled.

## Deck Out Your Markets!

### — Snack Displays —

**Snack Grids:** One-sided snack grids are available in three widths (25"W, 37"W and 49"W) and variable heights. They come with 12"L pegs and 12"W and/or 24"W baskets depending on the size of the grid. Shelves also may be added upon request.

**Snack Islands:** Two-sided snack islands are available in three widths (25"W, 37"W and 49"W) and variable heights. They come with 12"L pegs and 12"W and/or 24"W baskets depending on the size of the grid. Shelves also may be added upon request.

**Gondolas:** Two versions of four-sided gondolas are available: 32" and 42". The 32" version holds 12"W baskets while the 42" holds 24"W baskets. Be aware that these may be difficult to fit through smaller doorways.

Snack displays are available with slatgrid (as shown) or black slatwall.

**Slatgrid and Slatwall:** Our various cabinetry lines come standard with either slatgrid or slatwall in the backs of our snack cabinets to hang pegs, baskets and shelves. Slatgrid and slatwall may be installed in the upper backs of kiosk and coffee cabinets as well. Ask us about the line you plan to order and we can customize it as needed.

Slatgrids come in 12"W, 24"W and 36"W versions and may be cut to height in 3" increments. Slatwall is available in Black and Carolina Steel, and has aluminum inserts for additional durability.

**Pegs, Baskets and Shelves:** Pegs are available in 4”L and 12”L. Baskets are available in 12”W and 24”W (both are 12”D and 6”H). Our shelves may include black offset molding or lexan fronts, and come with slantable hanging brackets.

## Countertop Cubby Units

We offer four styles of tabletop cubby components. Pictured from left to right are:

- **Option 1** which includes four 4.25” x 7” stainless steel table bins on a top slanted shelf with lower storage.
- **Option 2** which includes upper open slanted shelf with lower storage.
- **Option 3** which includes upper and lower slanted shelves.
- **Option 4** which includes line-bored sides for adjustable shelves that may be straight or slanted. The shelves may include black offset molding or lexan fronts. The cubby may be sized as needed.

## Trash Units

Our trash units are available in single (22.5") and double (44.25") wide versions, both are 22.125"D and 37"H.

They have a 6" grommet hole above each trash liner. The liners are sized to fit precisely to ensure no trash falls around the liner to the bottom of the cabinet.

## Microwave Cabinets

Each of our lines of micro market cabinetry have matching microwave cabinets. We offer two additional styles of microwave cabinets: countertop stands that come standard at 42"H and vending décor units that come standard at 72"H. Single- and double-wide versions are available.

Most of our microwave units come with four-compartment black cutlery/condiment bins, and some have locking storage. Ask your sales representative for details.

---

## Lighting

---

Puck lights may be requested in kiosk, coffee, and snack cabinets.

The puck is a recess-mounted 12V (240 lumens and 2.5 watts) LED light with satin chrome aluminum finish and an opaque white polycarbonate lens. It has a pivoting head that allows you to direct the light to your desired location.

The puck includes an 18" connecting cable to string multiple lights together. A linking cable and power supply are included with each lighted cabinet.
