

Genesis Décor specializes in designing and manufacturing durable, attractive, and easily installed area décor and cabinetry for micro market, office coffee service, and vending areas. We make your installation not only beautiful, but quick and easy because our units are shipped 90% pre-assembled.

Markets 90 Cabinetry – The Basics

Our go to décor, the Markets 90 cabinetry offers full enclosure of your coolers, while still providing an affordable cost. This is the workhorse of our décor offerings.

About the Cabinetry

At 90" tall, this line of cabinets provides the height needed to allow headers over the coolers. This provides a totally enclosed market with full graphic options. The core cabinets in this line are fully self-contained with the headers built in. The cooler headers are secured between these cabinets creating a finished, high-quality look. These cabinets come pre-assembled, ready to set and go. And with their modular design, there is a great degree of flexibility in reuse.

Graphic Options

Choose from our graphic options, add a logo or let us create a custom design just for your markets. Each of the following options also are available without the motifs.

Cabinetry Color Options

Most of our millwork is made from thermally fused laminates (TFL) on a particleboard core and our countertops are made with high pressure laminate on plywood. We stock 10 popular colors and two countertop color options.

For additional information about this line of cabinetry, please see our Markets 90 - The Details flyer.
