

Genesis Décor specializes in designing and manufacturing durable, attractive, and easily installed area décor and cabinetry for micro market, office coffee service, and vending areas. We make your installation not only beautiful, but quick and easy because our units are shipped 90% pre-assembled.

Nano Cabinets – The Basics

Our Nano cabinets are designed to provide everything needed for a small market in one cabinet with space for the kiosk, impulse items, and snacks. Add a cooler and you are done.

About the Cabinetry

With a height of 79.5" the Nanos are designed to work with your standard coolers to provide an entire market in one cabinet. With upper storage behind the header, high grade slatwall for display, and shelves with lexan, this all-in-one solution hits the mark. Available with or without graphics, and in two widths, 48" and 60", the Nano provides that perfect answer to the small market problem. There is also a matching coffee unit available if needed to complete the line.

Graphic Options

Choose from our graphic options, add a logo or let us create a custom design just for your markets. Each of the following options also are available without the motifs.

Cabinetry Color Options

Most of our millwork is made from thermally fused laminates (TFL) on a particleboard core and our countertops are made with high pressure laminate on plywood. We stock 10 popular colors and two countertop color options.

For additional information about this line of cabinetry, please see our **Nano - The Details** flyer.
