

Genesis Décor specializes in designing and manufacturing durable, attractive, and easily installed area décor and cabinetry for micro market, office coffee service, and vending areas. We make your installation not only beautiful, but quick and easy because our units are shipped 90% pre-assembled.

This modular system allows you to create cabinets to fit your exact needs without paying for custom designs. Bonus: they can be reconfigured or expanded as needed.

— Countertops and End Panels —

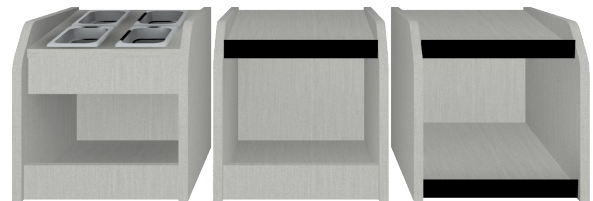

Countertops and end panels round out the package. The countertop is the total width of the modular units plus 3” and includes a backsplash. The end panels close off the ends for a tidy and cohesive look.

Two depths are available: 23.25”D and 32”D. Because the modules are only 18.5”D, there is plenty of space hidden behind the cabinet to accommodate for electrical and water lines.

— Countertop Cubby Units —

The cubby units offer more display storage on top of the counter. Option 1 includes four 4.25” x 7” stainless steam table bins on a top slanted shelf with lower storage. Option 2 includes an upper slanted shelf with lower storage. Option 3 includes upper and lower slanted shelves.
