

Genesis Décor specializes in designing and manufacturing durable, attractive, and easily installed area décor and cabinetry for micro market, office coffee service, and vending areas. We make your installation not only beautiful, but quick and easy because our units are shipped 90% pre-assembled.

## RTS Cabinetry – The Basics

With our “Ready to Set” cabinetry, setup doesn’t get any simpler. Save time and maximize product display with this space-saving and versatile line.

## About the Cabinetry

At 88" tall, this line provides compact cabinets while allowing full surrounds around coolers. The cabinets are fully self-contained. The built-in headers hold magnetic sign panels that are easily removed and replaced if changes are needed. Most of these cabinets come pre-assembled, ready to set and go. The cooler cabinets come in several pieces to allow for easier shipping, but they have quick-locking connects to make setup a breeze.

## Graphic Options

Choose from our options, add a logo or let us create a custom design just for your markets.

## Cabinetry Color Options

Most of our millwork is made from thermally fused laminates (TFL) on a particleboard core and our countertops are made with high pressure laminate on plywood. We stock 10 popular colors and two countertop color options.

For additional information about this line of cabinetry, please see our RTS - The Details flyer.
